Ayush Dwivedi

Frontend Developer(React)

PROFESSIONAL SUMMARY

Energetic front-end developer with a robust skill set in React.js and JavaScript. Demonstrated ability to rapidly learn new tech stacks and leveraging Generative AI for innovative solutions. Proven expertise in crafting scalable and responsive user interfaces while maintaining cross-browser compatibility and performance optimization.

PROJECTS

1. Himalaya Store Clone | |

React | JavaScript | HTML5 | CSS3 | Git | Chakra UI

- Developed an e-commerce platform for browsing and purchasing Himalayan products with Home, About, Shop, Cart, Login, and Store Locator pages.
- Utilized Axios for efficient HTTP requests and JSON-Server for API simulation during development.

2. Youtube.com | |

React | JavaScript | Git | Responsive Web Design | HTML5 | CSS3 | YouTube API | Tailwind CSS

- Implemented a dynamic search bar allowing users to fetch and filter videos by different categories.
- Integrated YouTube API to display real-time view counts, likes, and related video suggestions.
- Ensured the application was fully responsive across various devices and browsers.

WORK EXPERIENCE

Codsoft

Front-end developer as Intern | October 2023 - November 2023

Job responsibilities:

- Led end-to-end feature development to enhance user experience for web applications.
- Developed and deployed a responsive portfolio website and dynamic calculator.
